

Ole's juleengle

OLE'S CHRISTMAS ANGELS

FREMGANGSMÅDE

Start med at klippe juleenglens kjole ud og fold langs den stiplede linje (A).

Form kjolen som et kræmmerhus, kom limen på flappen (B) og lim formen sammen.

Klip englens arme ud, form dem let og lim endestykkerne fast på kjolen (C og D).

Klip englens vinger ud, form dem let og kom lidt lim på punkterne (E) og (F) og lim vingerne fast på kjolen.

Klip omridset af englens hår ud og klip derefter alle hårstråene ud. Form englens hoved. Bøj hårstråene let og lim englens hoved fast på kjolens punkt (C) og (D), hvor englens arme også er limet fast.

INSTRUCTIONS

Start by cutting out the angel's dress and folding it along the dotted line (A).

Give the dress a cone shape, apply glue to the flap (B) and glue in place.

Cut out the angel's arms, gently shape them and glue the ends to the dress (C and D).

Cut out the angel's wings, gently shape them, put a drop of glue on (E) and (F) and glue the wings to the dress.

Cut around the angel's hair first, then cut out the individual strands of hair. Shape the angel's head. Lightly bend the strands of hair and glue the angel's head to the dress at (C) and (D), where the angel's arms are glued on.
